

# Weather Hello Chant

This simple chant allows students to explore different ways to use their voice while greeting the group.

## WHAT THEY LEARN

Greeting friends, vocal exploration, steady beat, emotions

## WHAT YOU NEED

- No materials needed

## WHAT TO DO

- Model the chant while keeping a steady beat by clapping, patting, or using an alternating clap-pat pattern.
- Prompt the students to wave and say “hello” at the end of the rhyme.
- Encourage them to say the chant with you, but to listen closely when you describe how to say “hello”. Change the adjective each time and let your “hello” reflect the new word.

## LYRICS

Rain, sun, wind, and snow  
Everybody say a happy “hello”. (Hello! Hello!)

Rain, sun, wind, and snow  
Everybody say a quiet “hello”

Additional options:

Loud, low (use a low voice), high (use a high voice), slow, fast, silly, mouse (quiet), lion (loud)
